## A. LEGAL AUTHORITY

Each county jail is required under Correction Law, Section 500(f) to maintain a daily record of all inmate admissions and discharges. Specifically, Section 500(f) requires that:

> "Each keeper shall keep a daily record, to be provided at the expense of the county, of the commitments and discharges of all prisoners delivered to his charge, which shall contain the date of entrance, name, offense, term of sentence, fine, age, sex, place of birth, color, social relations, education, secular and religious, for what and by whom committed, how and when discharged, trade or occupation, whether so employed when arrested, {and} number of convictions."

Pursuant to Title 9 of the Codes, Rules, and Regulations of the State of New York, Section 7000.1(d), each county sheriff, superintendent, commissioner or officer in charge of a county jail or county penitentiary shall submit a statistical report containing data with respect to prisoners received and discharged during the preceding calendar year. Forms on which such data will be reported are forwarded by the Commission at the end of each year.

The Commission of Correction records and combines these individual county reports to produce an annual compilation of data from all jails and penitentiaries.

## B. BACKGROUND

The annual compilation of data became a function of the Office of Program and Policy Analysis in 1982. Since 1982, all data have been compiled via microcomputer. Formatting data on the microcomputers has produced a more manageable report form as well as enabled the Commission to report more tables of information than was possible in previous years.

Beginning in 1983, the Office of Program and Policy Analysis eliminated several tables of information from the Sheriffs' Annual Reports. These tables include: the inmate's previous occupation, nativity, marital status, religious preference, and financial data including salaries, cost of food, utilities, plant improvements and number of meals served. (Please note that although the Commission no longer requires the reporting of this information on an annual basis, it is still required under Section 500(f) of the Correction Law to be collected upon admission.)

Also beginning in 1983, the jail and penitentiary reports were combined on the same tables, whereas penitentiary data had been separate from jail data in previous years. This modification results in significant changes in table format and caution should be exercised when making data comparisons between years.

The process used by county jails and penitentiaries to produce an annual report is changing. The majority of county sheriff's departments still complete their annual report "by hand." That is, annual report tables are compiled from ledgers maintained by the facility for each admission during the year. There are, however, a number of facilities which have developed their own automated booking systems capable of producing an annual report via computer programs.

In addition, several counties participated in piloting the Jails Management System (JMS) during 1986. JMS is a software package developed by the Division of Criminal Justice Services Information Task Force in cooperation with the "Jails Team" of the New York State Sheriff's Association. JMS was designed to create a microcomputer-based "in-house" information gathering system (information concerning all inmate data required upon admission on classification, medical information, visitation, commissary, transportation, property, etc.).

By the end of 1986, JMS annual report programs were not in place to produce an annual report. Instead, data elements necessary to complete the annual report were extracted onto floppy disks by the Division of Criminal Justice Services (DCJS) as a pilot in three counties. DCJS generated a record file for the Commission of Correction to use in producing printouts of data that allowed completion of the annual report form for these counties.

C. REPORT HIGHLIGHTS

The New York State Commission of Correction has collected admission data annually from county jails and penitentiaries since the late 1800's. The process of compiling these reports has changed many times within the Commission to meet the changing needs of the users of this information.

The Bureau of Corrections Research of the Office of Program and Policy Analysis is responsible for this year's "Statewide Compilation of Data from 1986 Sheriffs' Annual Reports." The following statistics highlight data found in the 1986 Sheriffs' Annual Report Compilation.

Highlights from the 1986 Annual Compilation

There was a total of 128,551 admissions reported in 1986. Total admissions include both pre-trial and sentenced admissions. There were 113,225 male admissions representing 88% of total admissions and 15,326 or 12% representing female admissions.

On December 31, 1986, the reported inmate population was 7,920. This represents a 10% increase in population reported on 12/31/85. Of the 12/31/86 population, 59% were detained and 37% were sentenced inmates. The male/female breakdown was 93% and 7% respectively.

The average daily population reported for the entire year was 8,257 inmates. This represents a 5% increase in the daily average population of 7,843 housed during 1985.

The annual report is divided into categories of commitment by four major groupings; i.e., felonies, misdemeanors and offenses (except traffic), traffic infractions and miscellaneous reasons for commitment such as civil offenses, family court, violation of probation, and violation of parole, etc. Only the most serious charge is reported for each admission. Of the total admissions, 35% were felonies, 48% were misdemeanors and offenses, 5% were traffic infractions only and the remaining 12% were miscellaneous offenses. The majority of both males and females were admitted on misdemeanor charges.

The reason for commitment for all sentenced admissions is also recorded by the one most serious charge. The percentage of all sentenced admissions convicted of a felony was 21.4%; 59.4% were convicted for misdemeanors and offenses; 8% for traffic infractions; and 11.3% were sentenced for miscellaneous offenses.

Specific felony charges listed on the sheriff/penitentiary reports range from Assaults to Narcotics. The rank order of felony admissions indicates that 17% were admitted for Burglary; 12% for Grand Larceny; 11% for Narcotics; 10% for Assault; and 7% for Robbery. The greatest percentage of felonies admitted (31%) were reported under "All Other Felonies" for which no breakdown exists. Of the 45,858 felony admissions, 89% were males and 11% were females.

The total number of admissions for misdemeanors offenses, violations and infractions (except traffic) range from charges of Petit Larceny to DWI. The rank order of misdemeanor offenses upon admission were: 16% for Petit Larceny; 15% for DWI; 8% for Disorderly Conduct; 7% for Assault; and, 6% for Narcotics. Again, the greatest number of misdemeanor and offense admissions (39%) were reported under "All Other" for which no specific breakdown exists. Of the 61,416 misdemeanor and offense admissions, 86% were males and 14% were females.

Length of confinement for other-than-sentenced inmates range in such intervals as 1-2 days, 3-5 days, 6-10 days, 41-60 days and so on up to 351 days to one year. The percentage of all detained inmates held for 1-2 days is 37%; for 1-5 days is 56%; and from 1-15 days is 77%. Eight percent were detained in an other-than-sentenced status for more than 60 days.

Length of confinement for sentenced admissions also ranges from such intervals as 1-2 days, 3-5 days, 41-60 days, 61-90 days, up to 351 days to a year. The percentage of sentenced inmates held for 1-2 days is 10%; for 1-15 days is 38%; and from 1-60 days is 71%. Sentenced inmates held for more than 60 days represent 29% of all sentenced admissions.

Ages of those admitted are categorized by intervals of 16-18, 19-20, 21-29, and so on up to age 65 and over. Overall, 30,520 or 24% of all admissions were age 20 and under and 98,031 or 76% were 21 years and older.

Ages of sentenced admissions are categorized in the same age intervals as total admissions by age. There was a total of 27,139 sentenced admissions of which 25% were 20 years of age or under and the other 75% were age 21 and over.

County correctional facilities reported a total of 8,636 inmate housing facilities; that is, the total number of individual cells, the number of beds in dormitories and the number of detention rooms. Of the total number of inmate housing facilities reported, 7,913 or 92% were designated for male inmates and 723 or 8% were designated for female inmates.

Race is recorded by four major categories of White, Black, Hispanic, and Other. Of the total number of inmates admitted (128,551), 75,996 or 59% were White; 43,452 or 34% were Black; and 7,872 or 6% were Hispanic. Of the total number of Whites admitted (75,996), 90% were male and 10% were female. Out of the total number of Blacks admitted (43,452), 83% were male and 17% were female. The male and female breakdown of Hispanics was 94% male and 6% female.

Education by total admissions is categorized into education levels of grades 4 and under, grades 4 through 7, grades 8 through 12 (but not having graduated), high school graduates and inmates who have attended college. The rank order of admissions by education includes: 49% of all admissions attained an education level between grades 8-12 (but not having graduated); 31% of admissions were high school graduates; 13% attended college, 5% attended grades 4-7 and 1% of all admissions received less than a 4th grade education.

These are some of the highlights from the Sheriffs' Annual Reports for 1986. The Commission welcomes questions or comments regarding the data presented in the compilation.

D. CAVEAT

The data presented in the following tables are compiled from Annual Reports submitted to the Commission of Correction by Sheriffs, Superintendents, and Commissioners from each county, excluding New York City. The Sheriffs' Annual Reports represent self-reported data collected by county jails on a day-to-day basis on all inmate admissions, sentenced admissions, and discharges.

Differences exist in recordkeeping practices among these various counties. Therefore, it is not always possible to compare one county against another for every data category. The Commission advises caution when using data to compare one county to another.

## E. EXPLANATION OF DATA TABLES

1) Table 1 - Admissions and Discharges

"Admissions" refers to the reported number of admissions (both sentenced and unsentenced) processed by each county jail, not necessarily the number of individuals incarcerated.

2) Table 2 - Inmates in Custody - December 31, 1986

This table identifies those inmates in custody on December 31, 1986. "Det." refers to other than sentenced individuals on criminal charges. "Sent." refers to sentenced inmates. "Other" refers to civil or federal inmates.

3) Table 3 - Highest, Lowest, and Daily Average Population

"High, Low and Average" refers to the one highest, the one lowest and the daily average population reported by each county jail and penitentiary for the entire year of 1986. It should be noted that the highest and lowest population may have occurred on different dates for different facilities. It would, therefore, be erroneous to indicate that the highest population for county jails exceeded 10,100 or that the lowest was under 6,500 for any particular date using these data.

4) Table 4 - Reason For Commitment - Total Admissions

"Total Admissions" refers to all admissions into the county including both detained and sentenced inmates. The categories listed in this table include all: Felony Admissions; Misdemeanor Admissions, including Violations and Offenses; Traffic Infractions; and Other which includes Civil Offenses, Coram Nobis, Family Court, Violation of Probation, Violation of Parole, etc.

5) Table 5 - Reason For Commitment - Sentenced Admissions

Information contained in this table refers only to "Sentenced Inmates." The same definitions used in Table 4 apply to this table as well.

6) Table 6 - Felonies - Total Admissions

"Total Felony Admissions" includes the following felonies: Assault; Auto Larceny; Burglary and Burglary Tools; Dangerous Weapons; Grand Larceny (not auto); First Degree Murder, Second Degree Murder; Narcotics; Rape; Robbery; Sex Offenses (except rape); and All Other Felonies.

7) Table 7 - Felonies - Sentenced Admissions

Information contained in this table refers only to "Sentenced Inmates." The same definitions used in Table 6 apply to this table.

8) Table 8 - Misdemeanors, Offenses, Violations & Infractions (Except Traffic Infractions) - Total Admissions

Information contained in this section includes: Assault; Burglary and Burglary Tools; Dangerous Weapons; Disorderly Conduct; Narcotics; Driving While Intoxicated (DWI); Driving While Ability Impaired (DWAI); Petit Larceny; Prostitution and Vice; Sex Offenses; Unlawful Entry; Vagrancy; and All Other Misdemeanors, Offeneses, Violations and Infractions.

9) Table 9 - Misdemeanors, Offenses, Violations & Infractions - (Except Traffic Infractions) - Sentenced Admissions

Information contained in this table refers only to "Sentenced Inmates." The same definitions used in Table 8 apply to this table as well.

10) Table 10 - Length of Confinement Other Than Sentenced

"Length of Confinement Other Than Sentenced" includes all those not sentenced to the county. Most detained inmates are released within a five day period and many are released in less than three days. Inmates who come into the facility for only a few hours are reported within the 1-2 day category. Length of confinement ranges from 1-2 days to 351 days to a year.

11) Table 11 - Length of Confinement - Sentenced Admissions

"Length of Confinement - Sentenced Admissions" includes all sentenced days served in 1986. The number of sentenced days is greater than the number of sentenced admissions received in 1986 because of sentences carried over from the previous year.

12) Table 12 - Ages - Total Admissions

This table contains data on the age of the offender. Due to a change in Correction Law on August 6, 1984, the definition of a minor and adult changed for county jail inmates. Prior to 1984, a minor was defined as age 16-20 and an adult as age 21 and over. The definitions have changed a minor to 16-18 and an adult as age 19 and over. Caution should be taken when comparing this table and Table 13 to previous years as the age groupings may be different.

13) Table 13 - Ages - Sentenced Admissions

This table refers to "Sentenced Inmates" only and contains the same notes as Table 12.

14) Table 14 - Inmate Housing Facilities

"Inmate Housing Facilities" are identified as cells, detention or holding rooms, and dormitory areas (number of beds).

15) Table 15 - Race - Total Admissions

"Race of Inmate" is identified into four principal categories of White, Black, Hispanic, and Other.

16) Table 16 - Education - Total Admissions

"Education of Inmates" has been identified into five categories identifying those inmates with: less than 4 years of schooling; more than 4 years but less than 8 years; 8 years to 12 years but not having graduated from high school; high school graduates; and those who have attended college.
